

# PARA Data Editor

The PARA Data Editor is a multi featured web based system that allows hospitals unlimited access to a number of solutions to assist with revenue cycle functions.

The monthly subscription to the PDE provides twenty users at your Hospital unlimited access 24/7.

The PDE is composed of 12 tabs (36 sub-tabs), which work together to provide Hospitals the same tools utilized by the PARA consulting staff to analyze, repair and improve the revenue cycle processes.

There is a minimum one year agreement to subscribe to the PDE, with a subsequent month to month continuation with a 60 day cancellation notice.

The base fee for the PDE is one thousand dollars (\$1,000.00) per Provider per month.

The screenshot displays the PARA Data Editor interface for a demonstration hospital. The top navigation bar includes tabs for 'Select', 'Quote A Price', 'Charge Maintenance', 'Contracts', 'Pricing Data', 'Pricing', 'Rx / Supplies', 'Filters', 'CDM', 'Calculator', 'Advisor', 'Administration', and 'PARA'. The main content area is divided into several sections:

- Hospital Information:** Includes dropdowns for Hospital (Demonstration Hospital [Sales]), CDM Date (01/31/2008), and Department (0000 - Total Items: 00001).
- Account Information:** Lists account executives (Violet Archuleta-Chiu) and tech support (Richard Dirkes-Jacks) with their contact details.
- Market Hospitals:** A table listing various hospital types (e.g., Regional, Community, Memorial Health System) with their respective cities and provider IDs.
- Bulletin Board:** A section for news and updates, including a notice about a USDOJ news release and a 2010 Physician Quality Reporting Initiative (PQRI) program reminder.
- Footer:** Contains logos for EDI, INGENIX, ASCX12, and myMedicalCosts.com, along with a browser compatibility warning for Internet Explorer 7.

- Review and assign NDC and CMS J codes and units of service for billing and reimbursement
- Evaluate and pro-forma new mark-up schedules, project gross and net revenue impact
- Research C codes, assign for device edits

# PARA Data Editor

## Filters

Allow quick and multiple queries of data elements of the Charge Master to create a focus on the items that require attention, all queries are exportable in Excel or PDF.

The screenshot displays the PARA Data Editor interface for a demonstration hospital. The top navigation bar includes tabs for Select, Quote A Price, Charge Maintenance, Contracts, Pricing Data, Pricing, Rx / Supplies, Filters (active), CDM, Calculator, Advisor, Administration, and PARA. The main content area is divided into several sections:

- Coding Filters:** A list of filter categories such as 'Invalid - CPT Only', 'Compliance - Identified for Review', and 'Pharmacy - Self Admin Drugs - J Codes'. Below this are options for 'Recommended Changes' (All, Approved, Not Approved), 'Changed By' (Online AddB 2009), 'Comment By' (AddB 2008), 'Transmittal' (PET Modifiers July 2009), 'Service' (Allergy), and 'Quantity' (With/Without).
- Pricing Filters:** Includes checkboxes for 'Recommended Price', 'Same CPT@ w/ Different Price', 'Relative To Market' (with radio buttons for Below Average, Below Midpoint, Above High, and a Market Inflation field), 'Price Below Clinical Lab', 'Price Below Professional Fees', 'Price Below DME', 'Price Below APC Status T', 'Price Below APC Status S', and 'Price Below APC Status X'.
- Quote A Price:** Features a 'Package' dropdown (00 Test) and an 'Add On' dropdown (CT Contrast).
- CDM:** Shows 'Department: 0000 - Total Items: 00001', 'Sort By: Procedure Code' (Ascending/Descending), and 'View CDM By: Detail/Summary'.
- Reports:** Includes 'Audit: Unit of service - per ml/sq cm' and 'Service: Allergy', both with 'Create PDF' links.

At the bottom, there is a copyright notice: Copyright © 2010 Peter A. Ripper & Associates, Inc. | webmaster@para-hcfs.com | Privacy Policy

- Three categories of filters – coding, pricing and audit – each will improve your focus of items requiring attention.
- Coding filters identify specific items in the charge master that are affected by APC changes, CPT / HCPCS code changes, or any other regulatory impact
- Audit reports are predefined to identify services not currently billed by the Hospital
- Filters identify quarterly APC updates, annual CPT / HCPCS updates, CMS program transmittals, CCI edits, and Med Learn transmittals.
- Pricing filters identify items that are below fee schedule, APC, or market targets
- User created custom filters to locate items in the CDM

# PARA Data Editor

## Charge Description Master (CDM)

A comprehensive view of all data elements charge master related

The screenshot displays the PARA Data Editor interface for a demonstration hospital. The main window shows the CDM Detail view for two items. The interface includes a navigation bar at the top with tabs for Select, Quote A Price, Charge Maintenance, Contracts, Pricing Data, Pricing, Rx / Supplies, Filters, CDM, Calculator, Advisor, Administration, and PARA. Below the navigation bar, there are tabs for CDM Detail and CDM Summary. The main content area shows the following information:

- CDM Date: 1/31/2008
- Department: All - Items: 2 (2 loaded)
- Quantity Date Range: 11/1/2007 to 10/31/2008
- HCPCS/CPT Code: 85025

Procedure Code	Billing Description	Quantity	Market	Cost	CPT® / HCPCS			Revenue Code				Rx / Supply			Compl	CCI	
					CPT®	Medicare	Medicaid	Other	Dflt	OPPS	Part B	Other	Orig	U Mit			New U Mit
1 4195 - 4700472	CBC WITH AUTO WBC DIFFERENTIAL	202.25					85025			0300	0300	0099					CCI LCD
2 4500 - 6510069	CBC (WITH AUTO WBC DIFFERENTIAL)	82,368 175.50					85025			0300	0300	0300					CCI LCD

At the bottom of the interface, there are sections for Reports (CDM Detail - PDF, Excel; Segment Detail - Excel), Navigation (All, Display All Departments, Prev Dept, Next Dept), and Sorting (By: Procedure Code, Ascending, Descending, Go). The footer contains copyright information for Peter A. Ripper & Associates, Inc. and links to the website and privacy policy.

- Edit all charge master code segments from one screen
- Review history of code and price changes, including who made them, when and why
- Document code changes and notes to explain code assignment, pricing and process decisions
- Map claim processing edits to the charge master to allow a complete view of the bill write system.
- Create extract file of code and pricing changes for upload to Hospital system
- CPT, HCPCS, Medicaid, Workers Comp and revenue code descriptions
- Hospital comparison pricing data by HCPCS code
- Medicare Fee Schedules/Reimbursement Rates specific to the Provider
- NDC, UPN, RVU and order entry mnemonics tied to charge master items

# PARA Data Editor

## Calculator

A query based research tool that allows the User unlimited access to multiple data sources,

The query information can be exported to PDF or Excel files or copied to the desk top for email applications. The User can save their preferences which are specific to their geographic and payment region, all codes, payments, and claim edits are always the most current available.

### **The Calculator components are as follows:**

2010 CPT Codes – adds, changes, deletions  
DRG Codes  
HCPCS/CPT Codes  
Professional Fees  
Medicaid or Workers Comp Reimbursement  
ASC Reimbursement  
DME Reimbursement  
Clinical Lab Reimbursement  
CPT assistant

ICD9 Codes (Diagnosis and Procedural)  
ICD10 Diagnosis Codes  
Revenue codes and Modifiers  
Device Dependent APC's  
CCI Edits  
National Coverage Determination – Lab  
Local Coverage Determination  
Medicare Part B (ASP) Drug Payment  
Interventional Radiology  
CPT to Procedure ICD-9 crosswalk

# PARA Data Editor

## Advisor

An educational repository for all Bulletins, Transmittals, and Updates that PARA receives from a variety of sources into a single platform. The User can sort by the type of document, search by keyword within the Summary description, and select the charge master link to tie the specific items in the update to the charge master.

The Advisor tab includes Regulation notices and opinion memorandums produced by PARA to interpret the guidelines issued by CMS and the Fiscal Intermediaries/MACs.
